## STATE'S FAIR UNDER WAY

Gates Thrown Open To-day  
for Annual Exhibition at  
White River Junction

### TWO TRACK EVENTS ON THIS AFTERNOON

Over 2,000 Birds Will Be  
Shown in the Poultry  
Exhibit

White River Junction, Sept. 12.—The gates of the Vermont state fair grounds were thrown open to the public this morning. Everything points to a most successful exhibition, with the weather man giving assurances of a week of sunshiny weather.

An indication of large attendance is found in the fact that several fairs in Vermont and New Hampshire have cancelled their dates and also in the fact that the demands being made on the hotels within a radius of 50 miles are larger than usual.

With the opening of the gates this morning the music began on the midway and the voice of the barker was distinctly heard. Judging in all departments was begun.

The first day of a fair does not bring out a large attendance, but the crowd to-day promises to be up to the average of a first day if it does not exceed it. The state fair commission is deserving of much praise for having everything ready on the opening day. Every department is complete.

The two events on the track to-day are a 2:17 trot and a 2:28 pace, for purses of \$400 and \$300, respectively. A good bunch of horses has been entered in each contest.

Lovers of the vaudeville will find an entertainment sure to please. Two stages are being utilized for this feature, a new one having been erected in front of the smaller grandstand.

Large crowds are expected to-morrow and Thursday.

A unique feature of the fair will be the exhibition given by the automobile owned by the "Moxie" company, and which the manager designates as the marriage of the horse to the automobile. In fact this is a beautiful wooden horse mounted on the chassis of an automobile, ridden by a former jockey known as "Moxie Joe." On each afternoon of the fair, a half mile or mile heat (as the management may designate) will be made by this singular combination. The "animal" is guided by the reins of the horse-hair bridle purchased for \$75 by the originator of the idea, and which is on daily exhibition when not in use. The automobile horse will be escorted by the celebrated "gold car," which has traversed all the surrounding country and states, and by the white enameled car. This peculiar exhibit has been shown at all the large fairs, including Marshallfield, Barnstable, and Worcester, Mass., and other places. A. W. Hodgman has charge of this exhibit on this tour.

The boys from the 24 different Pomona granges who will attend the fair under the auspices of the Vermont extension service in charge of T. Bradlee, director, assisted by E. L. Ingalls, arrived on the ground Monday and their tents have been set up on the vacant space beyond the car track in the southwestern portion of the grounds. Four experienced instructors take turns in escorting the boys about the grounds, allowing them to view the fair understandingly and fit themselves for better usefulness. The instructors are Messrs. Ross, Leggett, Johnson and Wheelock. The extension service will also have a forestry and seed exhibit in the building formerly used for that purpose.

An interesting exhibit in floral hall is that of the C. S. Phillips Co. of Glover, taxidermists. All manner of beasts, birds and fishes are shown looking as natural as life. Among them are a black bear and three cubs, mounted on stumps.

### Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast, fast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert, a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anemic-looking men, women and girls, with pale, pasty or muddy complexions; instead of the multitudes of "nervy wrecks," "run-downs," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

At the end of an early inning Schlafly went out to telephone or buy a goat or something and was delayed so long that the Senators had three men put out before his return.

The Sox came trotting in for their turn at bat. Washington took the field, with only eight men and nobody on second, and the game went on that way till Fielder Jones hit one straight across second. Then, and not till then, was it discovered that there was nobody on second base.

Incredible as it may seem, nineteen men—seventeen players and two umpires—had started the half inning in this fashion and not one of them got wise till Jones' hit shot over the empty station.

Schlafly reappeared at this juncture, and the umpires decided that the hit was illegal when made with only eight men in the field. Jones had to go back and bat over.—New York Sun.

looking as if they were in their native wild. Freak nature is here also found, one twin Holstein calf with double head being in the exhibit. There are also shown many pictures of Vermont scenery in the hall, work of capable artists, drawn work in abundance and many other things to attract the feminine eye. In the poultry exhibit over 2,000 birds will be shown and although the number is not quite as large as in some of the former years, the exhibit is of some very fine stock.

### HUGHES AT STATE FAIR.

"Going Strong" in Home Stretch of His Long Campaign Tour

Syracuse, N. Y., Sept. 12.—Hughes was back on familiar soil yesterday—speaking to voters of the Empire state as he did back in the days of his gubernatorial races. He addressed a big crowd yesterday at the state fair.

Five weeks ago yesterday the former governor of New York made the first speech in his transcontinental tour in Detroit. Yesterday he was on the home stretch of that tour, and, as he himself expressed it to members of his party, "going strong." He admitted, however, that he would be glad to get the five or six days' rest in Bridgehampton, L. I., that has been granted him by his campaign managers before he starts out again on a practically continuous series of trips.

Mrs. Hughes hopes to accompany her husband on all future trips provided the Hughes' children can be comfortably placed with relatives and in school from now until Nov. 7.

### All in the Way You Look at It.

A young woman, traveling alone and unused to the ways of the world, had left her home on an early morning train to visit a school friend in a distant city. It had been a tiresome journey and just before reaching Harrisburg she had fallen asleep.

Waking up, she turned around to an old gentleman in the seat behind her, and said: "Will you please tell me if we are on this side of Harrisburg or the other side?"

"We are on this side," he said.

And she settled down again comfortably and entirely satisfied.

### OVER 2,000.

Have Died in New York of Infantile Paralysis.

New York, Sept. 12.—Twenty-three deaths from infantile paralysis in this city occurred during the 48 hours ending at 10 a. m. yesterday, according to a department of health bulletin. This brings the total of fatalities up to 2,123 since the inception of the epidemic.

Yesterday's bulletin shows that 66 new cases have been discovered.

### Bay State Cases.

Boston, Sept. 12.—Twenty-five cases of infantile paralysis, developing over Saturday and Sunday, were reported yesterday at the state department of health, making a total of 172 for September. Seven were reported from Boston.

### 600 Cases Now in Connecticut.

Hartford, Conn., Sept. 12.—There are now six hundred cases of infantile paralysis in Connecticut, according to returns made to the state board of health, fourteen new cases being reported yesterday from various parts of the state.

### 32 New Plague Cases in New Jersey.

Trenton, N. J., Sept. 12.—Thirty-two infantile paralysis cases developed in New Jersey Saturday and Sunday. The total in the state is recorded at 314.

### Admiral Hendee Dies.

Brookline, Mass., Sept. 12.—Rear Admiral George E. Hendee, U. S. N. (retired), died at his home here Sunday night. He was born in Boston 70 years ago and was retired in 1902 after more than 40 years' continuous service in the paymasters' division of the navy. He took part in many naval engagements during the Civil war.

He—But we're very comfortable here. How would it do if I ask the landlord to raise our rent.—Boston Globe.

### STEFANSON PARTY IN.

Seven Members Reach Seattle and Will Go Direct to Ottawa to Report.

Seattle, Wash., Sept. 12.—The steamship Northwestern arrived from Nome, Alaska, yesterday, with seven members of the Vilhjelmur Stefansson Canadian arctic expedition that left Victoria, B. C., in the whaler Karluk June 17, 1915.

The men are Dr. Rudolph M. Anderson of Des Moines, Iowa, second to Stefansson in command of the expedition; John J. O'Neill, geologist, of Port Colborne, Ont.; John R. Cox, topographer, Ottawa, Ont.; Diamond Jenness, anthropologist, Wellington, N. Z.; Fritz Johansen, naturalist, Copenhagen; George H. Wilkins, photographer, London, and Kenneth G. Chapman, topographer, New York. Anderson and his party will go direct to Ottawa to report to the Canadian government.

Anderson and his accompanying scientists escaped the misfortunes that were encountered by the branch of the expedition that went from Nome on the Karluk, which was wrecked in the Arctic ice the first winter out. Thirteen members of the Stefansson expedition, including five scientists, perished in the North.

## FORD GOES AFIELD TO FIGHT LIBEL SUIT

Defends Navy League Action, Though Not in Jurisdiction.

Washington, Sept. 12.—Henry Ford, peace advocate, really doesn't mind a fight. Agreeing yesterday to come to Washington to defend a suit for \$100,000 brought against him by the Navy League, he took on an unnecessary court scrap, his attorneys advised him. He overruled the attorneys' advice that since he resides outside the District of Columbia he is outside the jurisdiction of the court. He wants to fight it out, he told them.

The \$100,000 is asked by the Navy League because of allegations Ford made in a campaign of full-page newspaper advertising against the preparedness propaganda of the Navy League. In his plea yesterday Ford stands pat on the allegations he made against the league.

"The right of every American citizen to be made acquainted with certain information which has come to the attention of Mr. Ford," the answer sets forth, "impelled him, at great expense to himself, to make the publications for which he has been sued. The same patriotic motives led him voluntarily to defend this suit a thousand miles from his home."

## The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clint," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious.

When called to a case of La Grippe, the patient is usually seen when the fever is present, as the chill which occasionally ushers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts, "Acetate" or citrate of magnesium. For the high fever, severe headache, pain and general soreness, one anti-rheumatic tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unsolicited for headache, neuritis and all pains.

### PINCHOT FOR HUGHES.

Progressive Leader Attacks Wilson's Foreign Policy.

New York, Sept. 12.—Gifford Pinchot, former chief of the bureau of forestry under Pres. Roosevelt, and later one of the powers of the Progressive party, has come out with a statement that he will support Charles E. Hughes and giving his reasons.

Mr. Pinchot's action is regarded as significant by the Republican campaign committee, because of the fact that although he has been in daily close and constant communication with Col. Roosevelt ever since the Chicago conventions, he had failed to announce himself for the Republican candidate. Mr. Pinchot two years ago was a candidate on the Progressive ticket for United States senator from Pennsylvania.

In his statement Mr. Pinchot says that for many months after his inauguration he thought well of Pres. Wilson, but that after he began to check up his accomplishments with his promises he was forced to change his mind.

### GEN. T. L. JAMES DEAD.

Was Postmaster General in President Garfield's Cabinet.

New York, Sept. 12.—Gen. Thomas L. James, who was postmaster general in the cabinet of Pres. Garfield, died here yesterday in his 86th year. He was born in Utica, N. Y.

### Genuinely Dry.

Antofagasta, a seaport of Chile, on Morena bay, a great shipper of metal ores, borax and nitrate, is obliged to pipe its drinking water several hundred miles from the Andes. The city is one of the driest spots in the world, though a deep water port. Beyond it lies the great Atacama desert.—Argonaut.

### HIS TWO TENSE MOMENTS.

One a Ninth Inning Crisis, the Other a Dinner Table Climax.

I heard a prominent Cambridge man tell of the two most tense moments of his life. But the tension in each case was different.

"I doubt if I ever shall forget either occasion," he said reflectively. "They were big moments."

"The first was when I was in college. I was captain of the baseball team that year. We came to the end of the ninth. We needed one run to tie the score and another to win the game. Two men were down and two on the sacks when I came to bat. And for once in my career I did it. I lined out a three bagger right over the railroad track. When I felt it go—well, that was one occasion."

"And the other," He chuckled, but a slow flush crept over his cheeks. "It was thirty years ago, soon after I left college. I went over to see a girl I thought was pretty nice and to meet her folks for the first time. I went on a Sunday. All the men were away. And they had duck for dinner." He stopped. "Ever carve a duck?" he asked meaningly. "No, neither had I before. Nor have I since." His flush deepened. "I never even went to see that girl again," he added plaintively.—Boston Journal.

### BONEHEAD BASEBALL.

One Curious Break That Even the Umpires Did Not Notice.

Baseball's champion foolish play was made in a game between Washington and the White Sox in 1907. In that battle Larry Schlafly was captain of the Washingtons and also played second base.

At the end of an early inning Schlafly went out to telephone or buy a goat or something and was delayed so long that the Senators had three men put out before his return.

The Sox came trotting in for their turn at bat. Washington took the field, with only eight men and nobody on second, and the game went on that way till Fielder Jones hit one straight across second. Then, and not till then, was it discovered that there was nobody on second base.
